**Subject:** Walford Links support request

Hello Catherine,

I wish to put forward my 100% support of the Walford Links project.

On average I cycle 12 miles a day between my house in Walford and my place of work in Ross-on-Wye. I find the conditions for cycling along the main Walford road are absolutely atrocious, not just the motorists who take risks everyday and have no patience when it comes to cyclists using the road, but the actual road surface itself presents a number of challenges!

I also have three children who have bikes but I am very reluctant to let them cycle along the road for fear of their safety.

My family would definitely use a dedicated link between Walford and Ross for cyclists / pedestrians on a very regular basis.

Kind regards

---

**Subject:** support for ross to monmouth cycl path

My family and I wanted to add our support for the proposed cycle way to Monmouth – currently we drive to Monmouth to do the trail which is great for bikes and dogs! It would be a fantastic move to regenerate this old track and a real boost to Ross tourists at set off point – café's in ross ect and parking fees?

Kind regards

---

**Subject:** walford links support response

Dear Catherine Murray,

I have been told about the proposal to link the Peregrine Way to Walford and onto Ross on Wye using the old railway line.

I would like to add my earnest support; I live in Ross and work in Monmouth and will be using this route. To cut out the "road" section would be ideal.

I think the argument for developing the link, are clear:

- Environmentally friendly transport
- Reduces traffic load
- Separates Cycles and vehicles- safer for all
- Encourages tourism movement between Ross, Symonds Yat and Monmouth
- Attracts visitors to area strengthening the economy overall. Specifically Herefordshire economy which should interest Herefordshire Council

I would be happy to give further support/ help etc to the cause!

Much appreciated

Regards,

---

**Subject:** Walford Links Proposal

Dear Sir/Madam

I would like to add my support to the Walford links cycle path proposal. I live in Lower Lydbrook and work in Ross-on-Wye and have cycled to work in the past, but it is not a particularly pleasant or safe commute due to the main road and the speed of the traffic thereon, so it is not something I have maintained. The proposed route would, I am sure, be a major incentive for people like me to get back on their bikes, and would also enable them to use this route in the winter months – something I would never consider under the current conditions.

Kind regards

---

Subject: Walford Links Project

Dear Catherine,

I am writing to support the Walford Links Project for the proposed cycle path. Having lived and cycled around this area for 18 years it would be wonderful to have an off road route to rival the family trail in the forest. I would certainly use it I would also be keen to use the project as a local case study- we may even be able to provide students to assist in the development of the project as part of their Impact and Sustainability unit. I hope this helps the case for the project and I look forward to hopefully

working with those involved if it comes to fruition.

Your sincerely

Subject: FW: Walford Links Support response

Hi,

I am writing to support the proposal for a cycle route from Ross to Walford. I live in Wilton in Ross on Wye and have a young family that enjoy riding their bikes. We currently travel to the Forest of Dean to ride our bikes but would love to have the opportunity to ride more locally without having to travel in the car to get there or travel along busy roads.

Best regards,

---

Subject: walford links support response

Dear Sir/Madam,

I would like to support the Walford links project! I am a keen cyclist and resident of Walford Parish.

This project will allow people to get from walford to Kerne Bridge without the danger of walking on the main road!

Sincerely,

---

**Subject:** Support for Walford Links Project

Dear Catherine Murray,

We are really pleased to hear that there is a move afoot to open up the old railway as a bridle way, through the Walford Links Project. This would be a fantastic facility for the local area, encouraging local people to walk and cycle more, by providing a safe and scenic environment. Inevitably it will also provide an economic boost by enticing visitors and tourists to the area.

In full support,

---

**Subject:** Walfod Link Project

Dear Ms Murray

I have only very recently become aware of the Walford Links Project and would like to add my personal support to the initiative. Opening the Old railway line for use by walkers, cyclists and riders is an excellent idea and would reduce this shared use on the busy Forest to Ross road route. I fully support the initiative.

Kind regards

---

**Subject:** Walford Links support response

Dear Catherine,

I have just heard of your project to utilise the old railway line as a bridle way/cycle path. I believe this to be an excellent project and one that should gain support from the whole community (I'm sure more would respond if it were better known) and agreed by the County Council. The Ross-on-Wye area including Walford would benefit significantly if it had a "green lane" access all the way to the Forest of Dean and Symonds Yat, it would allow tourists to stay and call in at places such as Walford and Ross without the need to negotiate the main roads, a great benefit for cyclists and walkers. I wish you the best of luck with your project.

Regards,

---
